Profile

My name is Irfan Arif Widiatmoko. A graduate of English Language Education Study Program at Sanata Dharma University, Yogyakarta. I am an active, creative and communicative person. I have the ability in the field of teaching, writing articles, and doing various tasks through computer.

Experiences

Teaching internship at SMA Santo Thomas Yogyakarta

January 2019 – March 2019

The activities that I do at SMA Santo Thomas Yogyakarta are preparing lesson plans (RPP) and teaching high school students directly.

Journalist at Natas Sanata Dharma University - Online Media Division

2018 – 2019

During one year period in Natas, I was the administration of the Natas website. What I do are manage the user interface of the natas website, write articles and help other divisions do the coverage to be uploaded on the website.

Designer at Natas Sanata Dharma University – Artistic Division

2017 – 2018

I did the design using Corel Draw in the artistic division and did the magazine layout using adobe indesign. I am also active in coordinating during meetings and submitting work results every month.

Education and training

- **Full stack Web Development** - Binar Academy, April 2022 - October 2022
- **Product Management** - FGA Kominfo & Binar Academy, May 2022 – July 2022

Skills

Customer Service

- Able to operate and serve customers through freshchat and freshdesk.
- I can give a good impression, fast response to customers and make ticket conversations accurately.

Office & Design

I am competent with Microsoft Word, Excel and Powerpoint, and I can use Corel Draw to a good standard.

- I can do various tasks through Microsoft office, especially Microsoft word and powerpoint.
- I use Microsoft office and Google Workspace extensively since high school, University and till date.

- I use Corel Draw to complete organizational tasks and competition competitions such as membership cards, holiday greeting cards, logos, infographics and magazine designs.

Web Developer

- Mastering HTML, CSS, and basic Javascript.
- Through training at Binar Academy, I was able to create landing pages for websites and web games.

English Language

- I started to focus on mastering English since I entered the Language class when I was in high school until I graduated from English Education at Sanata Dharma University with a very satisfying graduation predicate.
- I am able to prepare and deliver good and interesting presentations in English.
- When I was in college, I had practiced teaching English in three schools in Yogyakarta in a good and structured manner.
